Eslam Amin

Full-Stack Software Engineer | .NET & React Developer

Giza, Egypt | +2 01505452077 | eslamaminmostafa0@gmail.com | linkedin.com/in/eslam-amin-mostafa/ | github.com/00Eslam00

PROFESSIONAL SUMMARY

Software Engineer specializing in ASP.NET Core, Clean Architecture, and CQRS, and React with a track record of building scalable RESTful APIs, real-time systems, and event-driven microservices (RabbitMQ, Kafka) on Docker/Kubernetes. Strong data foundation across SQL Server, EF Core, MongoDB, and Redis; skilled in JWT/OAuth2 security, Git/CI-CD, and Agile delivery.

EDUCATION

Cairo University - Bachelor of Computer Science *Oct 2021 – Jul 2025 | Giza, Egypt*

- **GPA**: 3.71/4.0 (*Excellent with Honor*)

TECHNICAL SKILLS

Languages & Frontend: C#, TypeScript, JavaScript, React, HTML/CSS, Python, C++, Java

Backend & Architecture: ASP.NET Core (Web API & MVC), Clean/Layered Architecture, CQRS, Microservices, SOLID, Design Patterns

Data & Messaging: SQL Server, Entity Framework Core, MongoDB, Redis, RabbitMQ, Kafka, SignalR

Security & Testing: JWT, OAuth2, ASP.NET Identity, TDD, Unit/Integration Testing, Postman, Selenium, Cypress, Playwright

DevOps & Security: Docker, Kubernetes, JWT/OAuth2, Git/GitHub, CI/CD (GitHub Actions), Azure, Agile

WORK EXPERIENCE

Teaching Assistant | Zewail City of Science and Technology *Sep 2025 – Aug 2026 | Giza, Egypt*

- Reviewed and debugged 100+ student code submissions (C++/Python); automated grading scripts, reducing manual effort by 70%.

Backend Software Engineer | Mr. Road *Jul 2024 – Mar 2025 | Remote*

- Built RESTful Web APIs with ASP.NET Core using Layered Architecture, cutting testing time by 60% and catching 95% of malformed requests.
- Implemented JWT/OAuth2 authentication and SignalR real-time features across the platform; ran Agile workflows via Jira and CI/CD with GitHub Actions
- Built an Admin Panel (ASP.NET Core MVC) and an optimized Dijkstra + Haversine shortest-path algorithm for geographic routing.

ASP.NET Backend Development Intern, Information Technology Institute (ITI) *Jul 2023 – Aug 2023 | Remote*

- Built a feature-rich E-Commerce platform with user role management; handled 90+% of edge-case scenarios; deployed on Microsoft Azure.

PROJECTS

Distributed Order Management System, Microservices Architecture *Jun 2026*

- Built a microservices system with ASP.NET Core, Docker, and Kubernetes; used RabbitMQ for reliable workflows and Kafka for real-time event streaming; added SignalR live tracking with Clean Architecture/CQRS.

EmoBus, Transportation Management Application *Jan 2026*

- Built a secure multi-tenant system with a React front end and a CQRS-based .NET 9 backend managing 50+ API operations.
- Delivered end-to-end features across the React UI and ASP.NET Core APIs, from booking flows to live tracking dashboards.

Articlash – Graduation Project, A Competitive and Collaborative Platform for Artists *Dec 2024 – Aug 2025*

- Architected a backend with .NET 8, SQL Server, MongoDB, ElasticSearch, and SignalR; tracked defects via Jira as backend developer. Achieved an A+ grade.

ACHIEVEMENTS

- Solved 1000+ competitive programming problems in C++ (CodeForces, LeetCode, CodeChef). CodeForces profile: Solom
- Freelance competitive-programming coach mentoring 50+ university students; ran 5+ workshops on backtracking, binary search, and STL.
- Mr. Road Employee of the Month (July 2024, October 2024).
